

Information on COVID19 (Coronavirus)

Dear Patient,

Loyola Medicine is committed to providing you and your loved ones with quality care each day. With growing concerns surrounding coronavirus (COVID-19), we want to assure you that we are on alert and have a number of precautions and screenings in place for patients and visitors.

All Loyola Medicine locations are open and operating under normal business hours. If you have a scheduled appointment, please plan to keep that appointment, unless you are experiencing [symptoms](#) like fever, cough or shortness of breath.

If you are a patient experiencing these symptoms, please call your doctor's office. Our providers will walk you through the necessary steps to minimize exposure to others in conjunction with CDC and IDPH guidelines.

The attached FAQs should help answer many of your questions regarding coronavirus. The [Centers for Disease Control and Prevention](#) and the [Illinois Department of Public Health](#) websites can provide further information regarding COVID-19.

If you have any questions or concerns, please contact our department at 708-327-4897.

Thank you for entrusting us with your care

Sincerely,

Raquel Garcia-Roca, MD
Interim Division Director
Surgical Director, Kidney & Pancreas Transplant
Associate Professor
Division of Intra-Abdominal Transplantation
Department of Surgery
